Dear members of council

I am writing to express my strong support for the proposed pedestrian safety ordinance.

Last summer, I experienced a frightening incident where an unidentified man walked into the middle of the highway and began banging on my car window while I was stopped in the center lane. Being alone in the dark, I was deeply concerned for my safety and unclear of his intentions.

My experience is not isolated. A petition on Change.org has gathered 534 signatures, primarily from Dover residents, from individuals who share these frustrations. Many others have reported similar encounters online, including instances of people attempting to open vehicle doors or banging on windows.

I am asking that the voices of those affected by these safety issues be heard and taken into account during your deliberations. It is vital that our concerns are recognized as you consider this ordinance.

Sincerely,

jeannielynna
